Answers are entered by the patient and have not been reviewed by a clinician.

1. Do you have any ongoing health conditions?

Seasonal allergies in the spring

2. List every medicine you take, including over-the-counter medicines and supplements.

Tamiflu 75 mg, 2x a day for 5 days (urgent care gave it)
Zyrtec 10 mg when my allergies act up
Mirena IUD since 2023

3. Are you allergic to any medicines, foods or other things? What happens?

Sulfa (Bactrim) - got a rash as a teenager

4. Past surgeries or procedures (with year).

Wisdom teeth out, 2011

5. Health problems in your parents, brothers or sisters.

Mom has hypothyroid
Dad has type 2 diabetes, found out around 55

6. Tobacco and alcohol.

Tobacco: Never smoked
Alcohol: 1-2 drinks a week

7. Work and home.

Occupation: Graduate student
Living situation: Lives with a roommate

8. Do you have a regular doctor or see any specialists?

No

9. Anything else you want us to know?

I don't have a regular doctor. Last checkup was a student health visit about 4 years ago. Not pregnant (IUD).

SYNTHETIC TEST DOCUMENT. Fictional patient. Hackathon prototype, not medical advice.
