Answers are entered by the patient and have not been reviewed by a clinician.

1. Do you have any ongoing health conditions?

None that I know of

2. List every medicine you take, including over-the-counter medicines and supplements.

Advil sometimes for my back after work

3. Are you allergic to any medicines, foods or other things? What happens?

No allergies that I know of

4. Past surgeries or procedures (with year).

ACL surgery left knee, 2003 (football)

5. Health problems in your parents, brothers or sisters.

Dad had an aortic aneurysm fixed at 60
Mom has high blood pressure

6. Tobacco and alcohol.

Tobacco: Never smoked
Alcohol: 4-6 beers a week

7. Work and home.

Occupation: Warehouse supervisor (day shift)
Living situation: Lives with wife and two kids

8. Do you have a regular doctor or see any specialists?

No

9. Anything else you want us to know?

No health problems that I know of. Never told my blood pressure was high before the ER visit. No regular doctor; last physical was about 8 years ago.

SYNTHETIC TEST DOCUMENT. Fictional patient. Hackathon prototype, not medical advice.
